Date: Sunday, June 11, 2017 11:45:33 AM

That fine. We can use this as the callin number, as I don't think we will need to display for this call

(b) (5) CIP; passcode: (b) (5) CIP

That might be best, as we could display suggestions. I will make arrangements to have a laptop hooked up to the big screen in the conference room so everyone there can watch, I am interested in getting the team's views on things such as is it reasonable to ask them to code for multiple items in a single comment, or just code it as something for further review. We should also have a talk on Monday or Tuesday about how to sort general comments from monument-specific ones etc.

Sure I can make that time. Let me know if you want me to set up a web meeting.

Thanks,
Stu

Are either or both of you available next Wednesday the 14th from 2 to perhaps 2:30 or 2:45 to discuss with the coding team, and possibly their higher-ups on the review team, how best to approach coding the rest of the monument comments?

There will be some people from NOAA there as well to observe and ask questions related to what they would like us to get for them from the coding relative to the marine monuments.
